

BAKON® BREEDER FEED COMPLEX PREMIX CONTENT

VITAMINS	VITAMIN A	MINERALS	CALCIUM
	VITAMIN D3		PHOSPHORUS
	VITAMIN E		SODIUM
	VITAMIN K3		MANGANESE
	VITAMIN B1		IRON
	VITAMIN B2		ZINC
	VITAMIN B6		COPPER
	VITAMIN B12		IODINE
	NIACIN		COBALT
	CALPAN ACID		SELENIUM
	FOLIC ACID		MAGNESIUM
	D-BIOTIN		MOLIBDENIUM
	CHOLINE CHLORIDE		CHROMIUM
	VITAMIN C		XYLANASE
AMINO ACIDS	DL METHIONINE	ENZYMES	CELLULASE
	M.H.A		PHYTASE
	L-LYSINE		A.AMYLASE
	LYSINE SULPHATE		PECTINASE
	THREONINE		B-GLUCANASE
	TRYPTOPHAN		LIPASE
ORGANIC ACIDS	PROPIONIC ACID	OTHER INGREDIENTS	SACC. CEREVISIAE
	FORMIC ACID		HSCAS
	CITRIC ACID		ANTIOXIDANTS
	SORBIC ACID		ANTICOCCIDIALS
			PROTEIN SOURCES

ADVANTAGES IN TERMS OF COSTS

- >> It is cheaper than the standard feed.
- >> Its content structure minimizes feed consumption.
- >> Provides the opportunity to choose the cheapest main feed ingredient.
- >> Dealing with only one feed additive substantially reduces costs.

“ALL IN ONE”

BAKON® FEED COMPLEX PREMIX

BREEDER GROUP

ALL IN ONE

BREEDER FEED WITH BAKON®

CEREAL (corn, wheat, etc.) + MEAL (soybean, sunflower, etc.) + BAKON®

The most important objective of the breeding industry is to obtain healthy flocks, high egg quality and high hatching performance. The best way to achieve this, is by using good quality feed with right additives in the production. BAKON® Feed Additives are premixes prepared in light of cutting edge developments in feed production technology. These special mixtures, developed by our company's long-term R&D work, is registered with the name of "BAKON®". "BAKON® BREEDER FEED COMPLEX PREMIX", prepared with special formulation for healthy flocks, optimizes the feed to include all additives at ideal levels required by nutritive and healthy feed.

OUR FREE OF CHARGE SERVICES PROVIDED TO ALL PRODUCERS USING BAKON®

Given our emphasis on customer satisfaction, we provide the following services free of charge to all BAKON® users:

- >> Monitoring the poultry house; application of ration ranges according to animal ages, health checks, diagnosing and treating animals with problems;
- >> Control and arrangement of feeding, lighting programs water systems, examination of equipment;
- >> Control and analysis of feeds and feed ingredients;
- >> Blood analysis;
- >> Vaccination programs and follow-up;
- >> General monitoring over feed manufacturing site.

By using BAKON®, your firm protects itself from any problems that may occur in feeding and health issues. Possible health problems are minimized through ensuring a well-balanced diet for your flocks. Solutions to potential problems are offered in the shortest time possible with the most effective methods.

DOSAGE: 25 kg per 1 ton feed.

CONTRIBUTION TO PERFORMANCE

- More eggs;
- Higher quality egg shell;
- Longer peak periods;
- Decreased rate of mortality, dirty and broken eggs;
- Higher immunity against diseases for flocks;
- Chicks with higher liveability;
- Longer fertilizing capacity in male breeders;
- Easier live weight control;
- Drier litter;
- Higher hatching rate.

GENERAL BENEFITS

- >> It is a perfect premix; simplifies the feed preparation.
- >> Enriches the feed content and provides a healthy and well-balanced diet, specially formulized for breed and each age range;
- >> Eliminates dependence on amino acids and includes all enzymes;
- >> No need to use additional preservatives, as it includes all at perfect levels;
- >> All feed ingredients in premixes are original and pure;
- >> Provides freedom in choosing the meal and cereal type and needs only one type of cereal.
- >> Provides specific options for breeders with problems;
- >> It standardizes the feed and provides continuous efficiency.
- >> Ensures feed hygiene with qualified preservatives.

TYPE OF BAKON® BREEDER FEED COMPLEX PREMIXES

- 1- BAKON Breeder Chicken Feed Complex Premixes
Used from first week through the beginning of laying period.
- 2- BAKON Breeder Feed Complex Premixes
Used from the beginning of laying period.

FEED INGREDIENTS

- >> Regional Cereals; corn, barley, wheat
- >> Oilseed meals; soybean, sunflower
- >> Bran-oil
- >> Limestone-salt
- >> Along with above, using BAKON® BREEDER FEED COMPLEX PREMIX will be sufficient for obtaining desired results.
